

It is vital that an LPFM station not replace 91.1 FM K-Love. K-Love is more than just a radio station, but it is a life line and many people rely on it to get them through each day. Our community would be without a Christian radio station that is so important to us. This station is unique because it is commercial free and listener supported. I support this station because it not only plays music, but changes lives. There are many in our community that would have no hope, if this station were not available to us. Please consider leaving 91.1 and not forcing them off the air. Thank you for your support!
